

Sprint 4 Burndown Chart

Sprint 4 Burndown Chart (Story Points)

Sprint 4 Burndown Chart (Issue Count)

As shown in the schedule document, the user stories for sprint 4 were dependent on each other. Therefore, to stay on track all members had to complete their tasks as soon as they were unblocked.

Velocity Comparison: Our velocity in the previous 3 sprints is:

Sprint 2	14 Story Points
Sprint 3	15 Story Points
Sprint 4	14 Story Points

Using the average of the three previous sprints strategy, the average of these sprints is 14.33, so 14 story points remains an accurate estimation for our sprint velocity.
