## Sprint 3 Burndown Chart (Story Points)

## Sprint 3 Burndown Chart (Issue Count)

Sprint 3 tasks were organized and on track. Similar to sprint 2, all stories were independent and all members had tasks available at the start of the sprint. The issues were evenly distributed and completed on time.

**Velocity Comparison:** In sprint 3 we completed 15 story points. In sprint 1 and 2 we completed 14 story points. Using the average of these 3 sprints, 14 story points remains an accurate estimation for our sprint velocity.
